

Following this a day was spent in Darien Connecticut at one of the best cheese shops in the world. Claire spent the day sampling Appleby's Double Gubocaster to interested customers in this stunning shop.

The evening before the Fancy Food Show many specialist food producers, retailers and distributors from across America and the rest of the world gathered in New York. During this evening around four hundred members of the cheese world gathered for the launch of the American Cheesemongers Association. Appleby's Cheshire was part of the food available at the event. The evening included the first American Cheesemonger Competition where skills such as cutting and wrapping cheese plus creating a cheeseboard, were tested to find the Champion Cheesemonger!
